IDEAS FOR BOMI

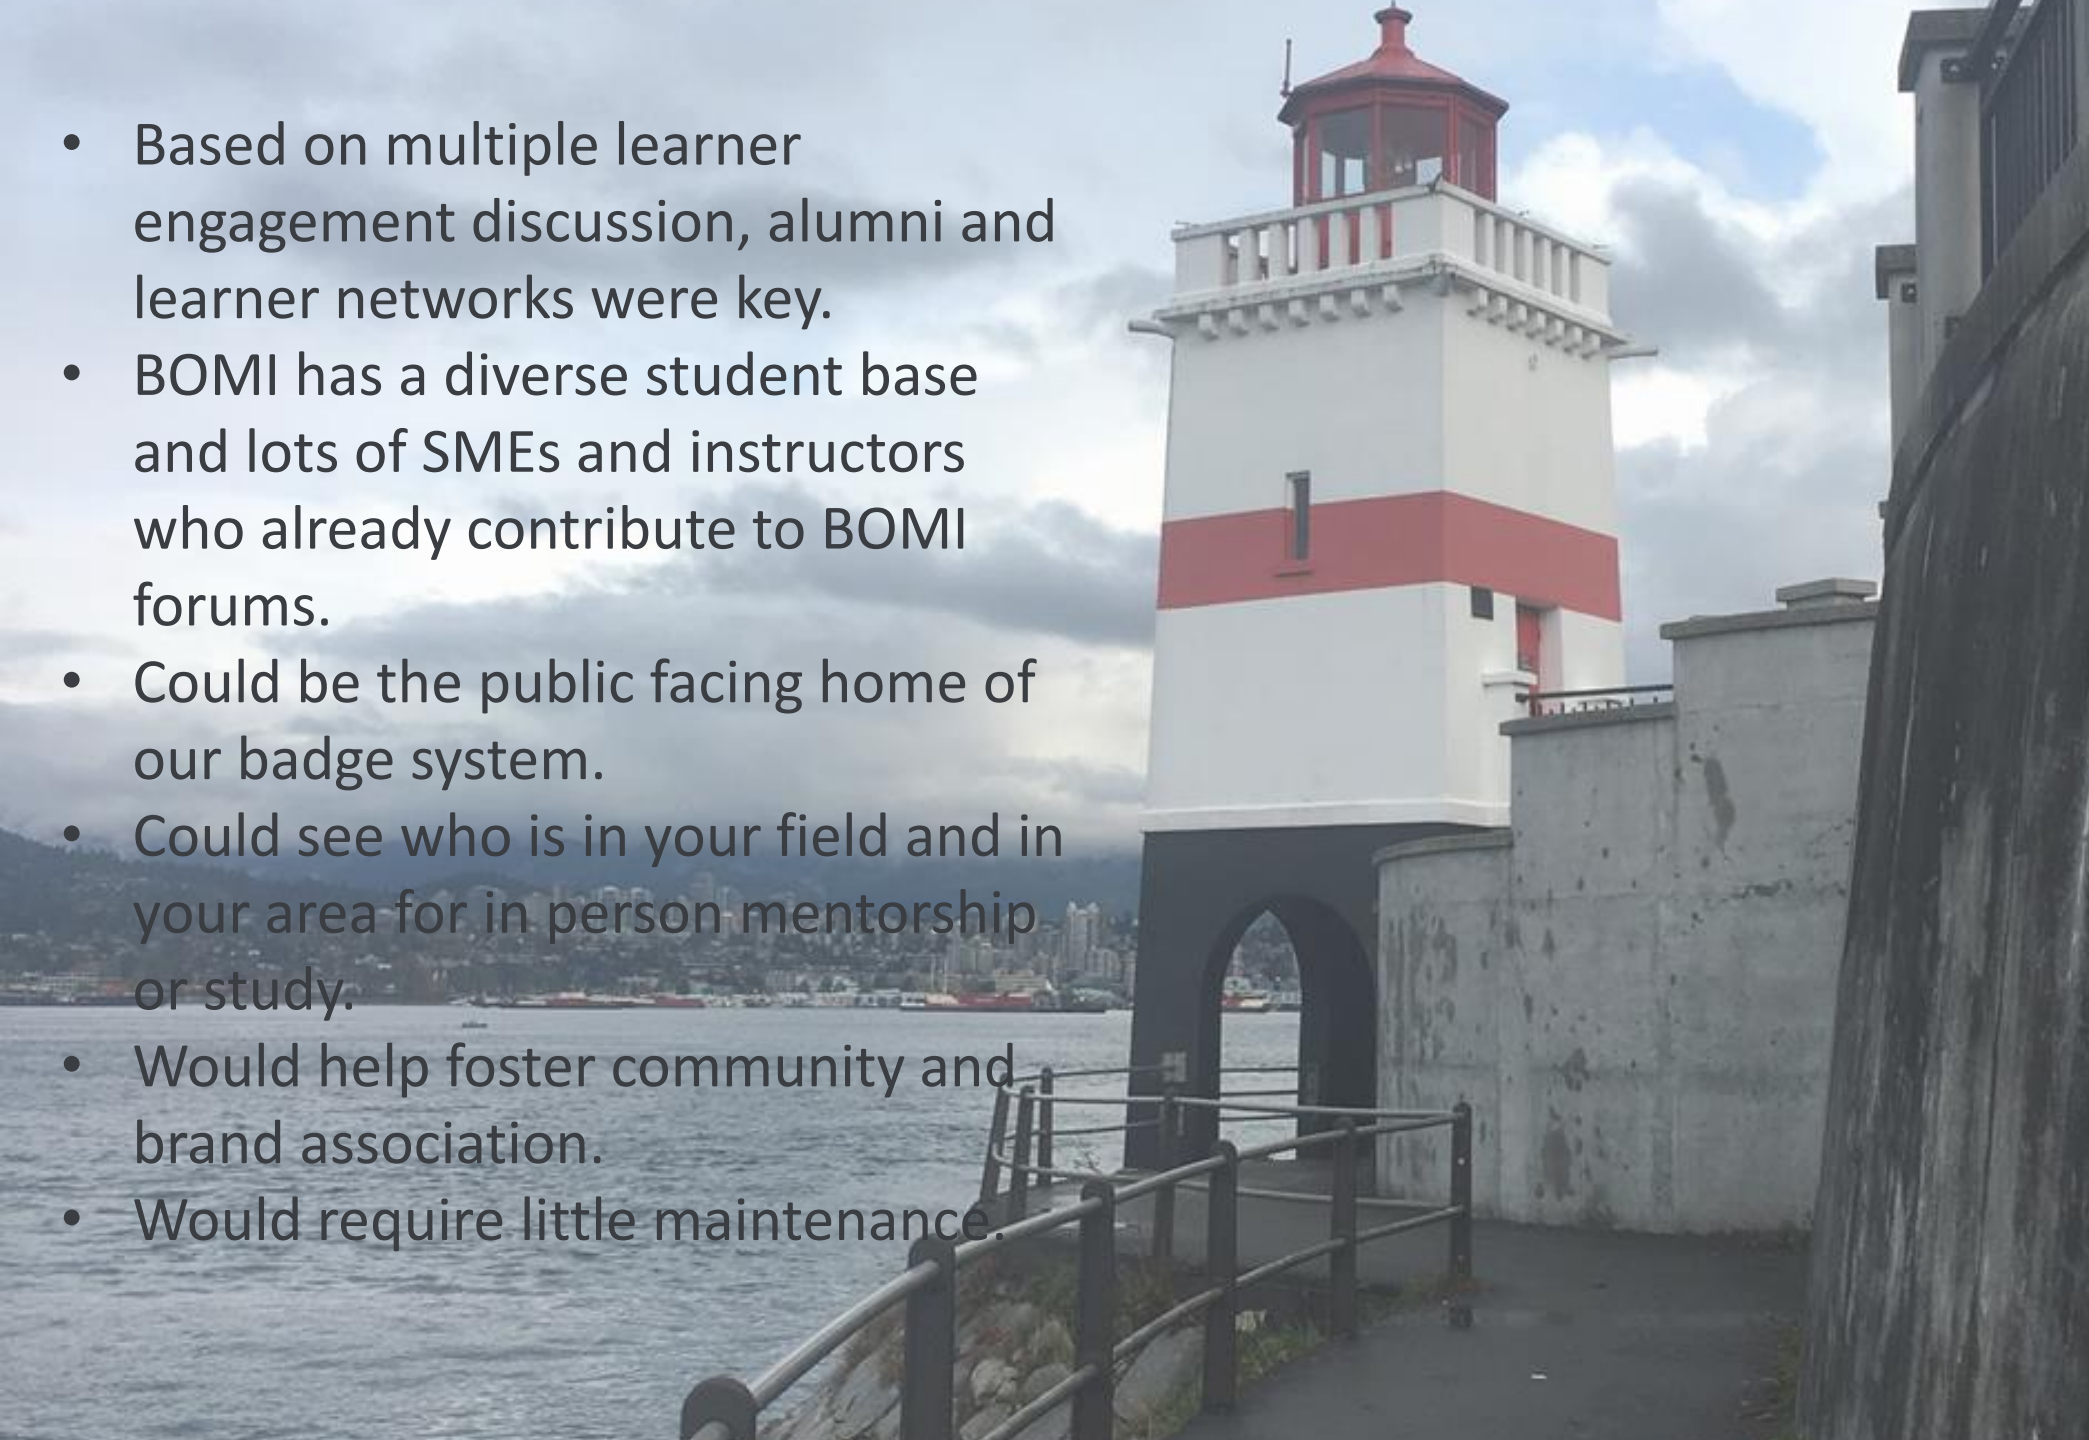

- Method of marketing a rapid succession of OAR classes.
- Method of marketing a virtual self study model.
- Can use research about how “time to let it soak in” is not a particularly sound concept.
- Binge culture lends itself to reaching personal online learning networks.

BOMI LEARNER AND ALUMNI ASSOCIATION

- Based on multiple learner engagement discussion, alumni and learner networks were key.
- BOMI has a diverse student base and lots of SMEs and instructors who already contribute to BOMI forums.
- Could be the public facing home of our badge system.
- Could see who is in your field and in your area for in person mentorship or study.
- Would help foster community and brand association.
- Would require little maintenance.

NEW THOUGHTS ON MICRO LEARNING

teaching and learning as an *exchange*

- Think of cash: easy, portable, dependable
- Mobile micro learning is a learning solution where learner flexibility and instructor flexibility are both high
- Small exchanges of information
- Question/Answer
- Database style

THANK YOU

A curriculum is more than a text book.

Binge learning should be active, not passive.

Online personal learning networks
promote learner engagement.
