Andre Snow

College discussion board:

Jim: $2+2=4$

Me: Wow Jim I totally agree. I like how you added the 2's together and got 4, very insightful.

Stranger Danger

- Upload photo and bio
- Do not expect students to work with strangers
- Conversation depends on trust
- Ice breaker games and questions

Make the Students Investors

Forum questions can:

- Require outside sources
- Require sourced info graphics
- Require photos taken from somewhere in the student's environment
- Require a quote from someone in the student's network
- Be a part of a large, collaborative project

Friendly Feedback

- Make students feel heard
- Always include at least one “?”
- Do not only expand individual thinking, but link students together
 - connect students with similar opinions and experiences
 - connect students with conflicting perspectives

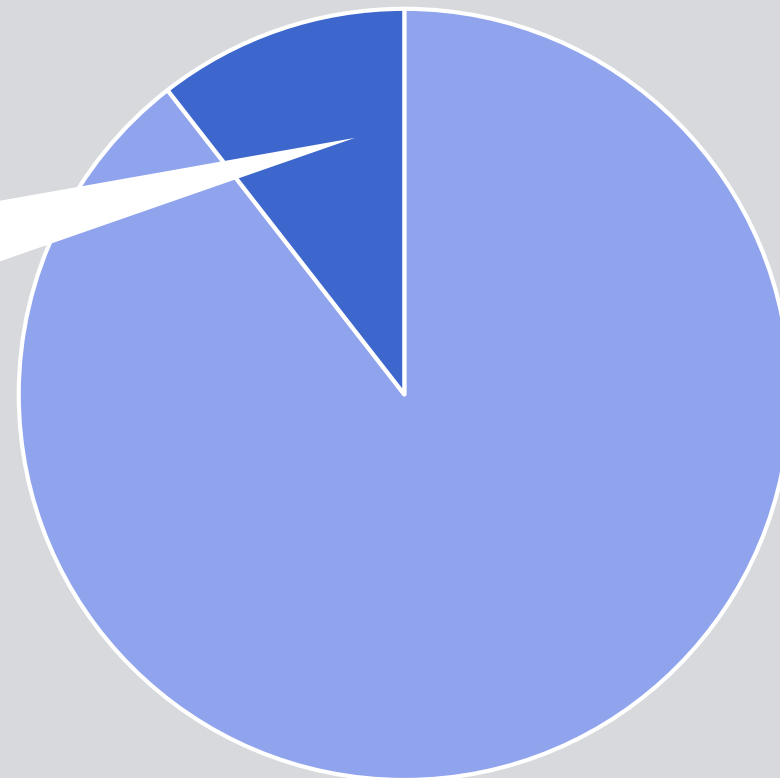

You probably think this slide is about you
